## Money Appropriated Finish Buffalo Courts

### \$10,000 BILL PASSED WORK ON CAMPUS

\$7,500 FOR COURTS

### Governor Yet To Act Upon Bill for the Money

An emergency appropriation for W. T. in the sum of \$10,000 was passed by the legislature Tuesday and is now in the hands of the Governor. This money was voted for the purpose of completing Buffalo Courts, completing work on Burton Gymnasium, building the rock wall around the athletic field and completing the repair work in the swimming pool in the administration building.

In the bill \$7,500 was allowed for the athletic field program, and \$2,500 for the swimming pool.

The request for the money was taken to Austin a month ago by Travis Shaw, business manager of W. T. He took pictures of the work now under way at Buffalo Courts, and the need of repairing the swimming pool. The fact that relief work was being used, and would be available for several weeks to come was emphasized in asking this amount for materials on these projects. Senator Clint Small passed the bill through the Senate last week, and Representative H. K. Stanfield sponsored the bill when it came before the House this week.

According to Coach Al Baggett the \$7,500 for materials will be sufficient to guarantee the completion of most of the work now

### Contour Project Is Approved For Randall County

Randall county was one of the first five counties in Texas to be granted a soil conservation project by the State Relief Commission. The application for this work was sent to Austin last week after the required number of acres had been pledged by the farmers for this work.

According to word from Austin, the necessary farm levels have been purchased for the work, and an assistant to the County Agent will be assigned to the county to look after this work.

Other counties applying for this work were: Harrison, Cass, Lamar, Grayson, Hockley and Pannin.

Following the terracing program, it is announced that the Relief Commission will favor a water conservation program comprising the building of dams to form small ponds and lakes. For the present, however, the work will be confined to the contour lines for the benefit of spring crops.

According to County Agent W. H. Upchurch, feed crops on level rows have at least a fifty percent better chance to make a good yield. Most, if not all, soil blowing can be controlled when there is sufficient moisture in the sub-soil to insure a crop. Farmers who are interested in the work and have not made application are asked to see Mr. Upchurch at once.

### Two Men Caught on Charge of Stealing Cow From Stockett

John Newberry and Angus Freeman are in jail under the charge of stealing a cow from John Stockett Sunday night and selling her in Amarillo. Sheriff Bob Barnett made the arrest Tuesday.

Unless able to provide bond the pair must await until July for the action of the grand jury.

Denton Firm Low Bidder on Topping Good-night Trail

WORK IN 3 WEEKS

### Contract Let on Friday For Completion of Highway

The contract for topping Good-night Trail was let Friday in Austin to the Public Construction Co., of Denton, the bid being \$39,216.90. The total set aside for this job was \$42,000.

Work will be started about the middle of this month, since it takes about three weeks in which to complete the bond and move the materials to the job.

This company has not had previous state contracts in this section of the state, but has done considerable work for the state in north Texas.

### Dr. J. A. Hill Presents Items To Legislature

Dr. J. A. Hill is in Austin this week working on the appropriation bill for W. T. which will be acted upon at an early date by the legislature.

The summer school bill for this year is now in the conference committee and is expected to be agreed upon before the end of this week. The House passed this bill for the same amount as was allowed last year. The Senate passed the bill so that salaries for the summer might be maintained at the same rate as allowed for the regular session.

The appropriation bill for the two coming years was passed out of both the House and Senate committees in a lump sum, the House allowing a little increase for W. T. over the Senate bill. However, a resolution was passed by the House recommending the bill to the committee and demanding that the bill be itemized as has been the case in past years. Texas is one of only three states in the union which passes its appropriation bills itemized.

Dr. Hill was authorized by the House committee to take the total amount given by the committee and itemize the appropriation as he would direct the money be spent during the coming two years.

The legislature is hoping to adjourn May 7th, and both houses hope to pass all appropriation bills before the end of April.

### Howard Lenington Died Sunday With Funeral on Monday

Howard Wood Lenington, 20, died Sunday at the home of his mother, Mrs. Mary McCorkle. The funeral was held Monday afternoon at the home, with interment at Dreamland Cemetery in charge of the Griggs-Thompson Funeral Home. Pall bearers were: Ester Mariner, J. H. Mariner, Mit Bryan, Roy Wall, Dick Sanders, Carl Rogers.

The deceased was a member of the Church of Jesus Christ Later Day Saints, Reorganized.

Surviving is the mother, one brother, Fletcher Leington, and one sister, Mrs. D. A. Fuller of Ava, Mo.

#### FORMER PASTOR DIES

Rev. C. G. Howard, former pastor of the local Baptist church, died last week, according to information in the Baptist Standard. Rev. Howard has served his church in several capacities since leaving Canyon.

### Eagles Tale Is Given New Honor In Winning First

A telegram yesterday from Austin stated that The Eagles Tale placed first in the State Interscholastic League for school pages.

The Eagles Tale recently won first place in the contest of the Texas School Press Association. The staff of the high school was highly pleased yesterday with the second outstanding success of the year as the result of the hard work put forth in making the page a success.

### CCC Work Will Continue But the Money Depleted

The new period for the CCC opened Monday. Instructions were received from both the Army and the National Park Service to continue work at the Palo Duro State Park, but funds were exhausted and bills could not be paid until the new appropriation had been passed by congress. This action is expected during this week.

Men eligible for re-enrollment were continued in the service, but no new men will be received at the recruiting station until the appropriation has been passed. 250 men remain in the two companies.

Major E. A. Kingsley received orders to proceed with work on the Park, but the salaries and materials accounts would have to await the action of congress.

The dining room and kitchen of the lodge were opened for public inspection Sunday, and in spite of the bad weather hundreds of people visited the park to see the new development.

The four cabins are completed, and work on the fifth has advanced during this period. It is planned to start construction on 20 more cabins as soon as the appropriation bill has been passed.

### No Speeches Friday at Banquet Dairy-men's Association

The bars are up against any speeches at the seventh annual banquet of the Randall County Dairymen's Association to be held Friday night promptly at 8:00 o'clock at the College Cafeteria.

No more tickets are available for the banquet, states the committee in charge, since 250 have been sold, which is the capacity of the cafeteria.

The doors of the Education building will be opened at 7:30. The banquet will be served promptly at 8:00 o'clock. Following the banquet, the guests will be ushered to the auditorium where a three act play will be presented by the wives and daughters of the dairymen, entitled, "No Men Allowed." Those who have not secured banquet tickets but wish to attend the play will be admitted at the east door of the Education building at 9:00 o'clock at 10c and 25c.

Members of the cast presenting the play are: Mrs. Albert Byars, Mrs. Ernest O'Donald, Mrs. Bailey McCormick, Miss Gladys Stewart, Mrs. H. R. Fulton, Mrs. R. O. Allison, Miss Mildred O'Donald, Mrs. L. T. Campbell, Mrs. John Haines, Miss Bee Holland.

### Dorothy Byers Funeral Is Held Saturday Morning

The funeral services for Dorothy Byers, 8 years of age, were held Saturday morning at 10:30 o'clock at the Baptist church, Rev. J. R. Hicks, officiating. The little girl died at an Amarillo hospital Wednesday night following an operation for appendicitis.

The deceased is survived by her parents, Mr. and Mrs. Lonnie Byers, and three sisters.

Mrs. S. H. Jones was called to Wichita Falls by the death of her brother-in-law.

SCOTT M. DOWNING

### Scott M. Downing Died Tuesday p. m. Funeral Yesterday

Scott M. Downing, 64 years of age, died Tuesday afternoon at 2:00 o'clock at his home following a short illness. He has been in poor health for several months, but was never confined to his bed. He died while resting in his chair from an heart attack.

The funeral services were held yesterday afternoon at 3:00 o'clock at the Methodist church, conducted by Rev. J. O. Quattlebaum. Interment followed in Dreamland Cemetery, directed by the Griggs-Thompson Funeral Home. Pall bearers were: Barney Conner, Joe Gamble, Oscar Hunt, G. G. Foster, George Bishop and John Fry.

Mr. Downing has been a resident of Randall county for 27 years. He was probably the best known stock buyer and shipper in the Panhandle, operating extensively from Canadian to Lubbock in buying and selling hogs, and to a limited amount also in cattle. On account of his fair dealing with the farmers very few car loads of hogs have been shipped out of the county which were not

### New Plan Put Into Operation on Light Bills

Abreast of the times the Texas Utilities Company announces in this issue the introduction of a new departure in electric rates for residential service. This announcement is the first of a series of statements planned by the company in order to set out fully the benefits which every home may have by studying the rate's possibilities.

For many years engineers in and out of research laboratories have succeeded in eliminating any doubt that electric current had an unsurpassed value for numerous convenient and economical applications. The simple ease which homes have today in the use of current has long since passed any experimental stage. In this section facilities by which generation and transmission of electric current have been made generally available by the Texas Utilities Company lies a fact quite often overlooked by the average user.

While engineering achievements and economical costs are admitted on all sides, a considerable effort has been made by various agencies to emphasize the adaptation of electricity in the direction of a broader contribution to the social well-being of the home. This trend is one of undoubted merit.

### Annual Historical Banquet to be Held Next Friday Night

The annual banquet and business meeting of the Panhandle-Plains Historical Society has been set for April 12. James C. Swift of the Swift and Henry Livestock Commission company, Kansas City, will be the principal speaker on the banquet program.

According to T. D. Hobart of Pampa, Mr. Swift has been identified for many years with cattle and other interests in the southwest, and is especially well known among the cattle men of the Panhandle. "He is a splendid and fluent speaker," says Mr. Hobart. Judge R. W. Hall, chief justice of the court of civil appeals in Amarillo, will be toast master on the banquet.

The business meeting will be held at the Education building in the afternoon, while the banquet will be held at Cousins Hall at 7:30 p. m.

L. F. Sheffy, secretary of the Society, states that it will be necessary to make advance reservations with W. L. Vaughan on account of the limited number who may be seated at the banquet.

### Baptist Convention Brings Interesting Program Two Days

While the attendance was not nearly so large as anticipated, the two-day Baptist program Tuesday and Wednesday was very interesting and considered a very great success.

Speakers of state-wide prominence gave interesting talks on various phases of the church's work.

Postmaster Asked For Data Regarding Local Office

SEEKS LOCATION

Will Make Recommendations Within Two Weeks

A. S. Page, postal inspector from Fort Worth, will make an inspection in Canyon within the next three weeks to determine the advisability of recommending a new postoffice building for this city.

Acting Postmaster Guy Harp was notified Tuesday to work up certain data regarding the business of the local postoffice, the number of people served at the various windows, and other information which will be necessary before an appropriation may be secured for the erection of a building.

Mr. Page requires a map of the town, together with pictures of the public and private buildings. Other information will be collected to make a comprehensive brief supporting the application for a new building.

Information was compiled recently regarding the business in Canyon, and a comparison made with other towns which have been granted federal buildings. This information was placed in the hands of Congressman Marvin Jones, and Senators Tom Connally and Morris Sheppard. All three promised to use their influence with the post office department for a building in Canyon.

One requirement is for a lot 100x140 feet on a prominent corner in the town. It is usual that the citizens be requested to furnish this location free of cost to the government, although Mr. Page did not make this requirement in his letter.

Citizens of Canyon have expressed a very great desire to present all of the facts to Mr. Page when he arrives here, and the data required is now being assembled for his benefit.

### Dr. and Mrs. Hill Received First Letter From Their Son

Joe Hill, Jr., Canyon's member of the second Byrd expedition to the Antarctic, is on his way home. Thursday, his parents, Mr. and Mrs. J. A. Hill, received their first letter from him for thirteen months. The letter was written from New Zealand and stated that they would soon be on the high seas homeward bound.

A stop at Panama, together with the slow speed rate of the Bear of Oakland, will prolong the voyage until the first of May.

Joe Hill, Jr., was Admiral Byrd's personal aide during the voyage from Little America to New Zealand. His task for the remainder of the trip to the United States will be repairing the only tractor which is being brought back from Antarctica.

Young Hill has sent home by fast ship a large number of pictures which he expects to use during the coming summer when he goes on a lecture tour. He is the youngest member of the expedition, having been only twenty when he became a member.

Mob psychology certainly has been clearly shown in this nation of recent years. The cry came to drink the nation back to prosperity, and prohibition was repealed; then we heard, gamble yourself back to prosperity, and nearly every state went into the gambling business; then we saw come forth a man who would give every old person \$200 a month, and away went the mob after him; now we have the share-the-wealth plan, which is appealing to thousands, but which is as much of a joke as the others. In the first place, there would not be an unequal distribution of wealth were it not for the fact that some men have financial sense and know how to use it, while about 99% of us daily contribute to their wealth through our lack of financial sense. One writer has aptly put this present movement: "Your share probably would be a part of the Henry Ford good will, a part of the General Motors overhead, and the air under Brooklyn bridge."

Vote Saturday in the school trustee election. The schools of the community are the most important factor of development. The tax payers have more invested in their schools than any other local institution. They pay more for the upkeep of the schools than for any other local institution. Those who are willing to serve as trustees for this important institution should be given the complete support of the community. Even though there are only two candidates, both standing for re-election, they should be given a vote of confidence by citizens who appreciate the schools. Go to the polls Saturday and vote.

The Senate has certainly put things in a mess; by the refusal to

POD WILL TAKE CARE OF HIM WHEN HE COMES HOME.

OH, IF HARRY SHOWED UP NOW, HOW SWEET SHE WOULD BE— OH DE-A-H, GOOD EVENING HARRY, SO SWEET OF YOU TO COME, DO BE SEATED.

pass the President's relief measure, most of the governmental agencies in the way of relief are running on credit, with the promise to pay if and when congress finally acts. But the President is probably doing the correct thing by allowing the Senators to run off at the mouth. Rather than use coercion, he will let the folks back home express their opinion of some Senators who are blocking the President's program. In other words, let some of the Senators talk themselves out of a job.

The dust storms of the past month bring forcefully to mind the necessity of a sound erosion policy in this county. Millions of acres have been badly damaged by the continued blowing. To allow farmers to move off and join the relief

army in the cities is not helping the national problem. From the Panhandle and the Canadian border the severity of the situation calls for the best thought of the nation along agricultural lines.

As a result of trucks operating on the highways there were 1487 accidents in Texas during 1933, and 1701 in 1934; 632 people were killed by trucks in 1933, while the number increased to 515 in 1934; 1972 persons were injured by trucks in 1933, which increased to 2314 in 1934. This is the reason why the legislature does not see fit to turn the trucks loose on the highways.

Word comes from Congressman Marvin Jones, Senators Tom Connally and Morris Sheppard that

they will present the postoffice building for Canyon to the postal department and urged that it be erected. Cutting away the red tape may take months, and again action might be taken in a short time. Towns which have secured postal buildings usually have to wait a long, long while.

Some fellow who says he has lived in West Texas for more than 20 years believes that following heavy winds there is always an abundance of spring rains. The gent must have forgotten last year and the year before, and some other drouth years when the wind blew and blew. Maybe he will hit it this year, since we are 30 inches below in our five year average.

Not all the cranks are of the present generation, although we seem to have more than our share. They bob up, explode their theories, and then are forgotten. The world naturally absorbs the small part of their theories which are good and discards the balance. First of a Series of Statements on the New "Ultimate" Rate for Residential Service

# STARTS THIS MONTH MORE ELECTRICITY IS AVAILABLE AT NO EXTRA COST

Without a doubt the thought has many a time come to you that you would like to have at your disposal a larger amount of electric current in your home at no increased cost. This same problem has been at the foundation of a careful, thorough study on the part of your electric company and our efforts in this direction have been successful. The application of the "ultimate" rate will be reflected in the electric service bill you will receive May 1st and thereafter.

You are cordially invited to visit our local office where the unusual benefits of the new "ultimate" rate can be easily shown you. In fact, it is to your advantage to become familiar immediately with the possibilities under the rate. You do not have to sign any agreement, but merely put to work some of your idle appliances, fill up the empty sockets, or eliminate a number of the menial tasks by the substitution of some of the labor-saving appliances which you may have deferred buying—and remember that under the rate's application there's little, if any, increased cost to you.

The liberalization of electric consumption is in step with your own desires for more current and in such an inexpensive manner.

## TEXAS UTILITIES COMPANY

## Display Newspaper Advertisements

One of the most unusual and dramatic ways ever conceived to exploit the use of newspaper advertising has been adopted by the Continental Oil Company. A novel contest has been inaugurated whereby during the coming Spring months cars and trucks will be seen on the streets and highways of some forty states plastered in hodge-podge compelling fashion with reprints of Continental's newspaper advertisements.

In addition to the circulation of ten million that Continental Oil Company gets for its advertising by using 1,363 daily and weekly newspapers, Continental's advertisements through this unique stunt will do double duty this Spring.

The unique appearance of Continental cars and trucks not only serves to call attention to the Conoco campaign now running in newspapers, but also reminds Con-

oco salesmen of the tremendous number of car owners who read about Conoco products throughout the year in their newspapers.

It is estimated that more than 3,000 cars and trucks will participate in the stunt. Aside from these company-owned and operated vehicles, it is expected that a good percentage of the 22,000 Conoco dealers will likewise participate.

Continental is one of the country's largest users of newspaper advertising and gives this medium a large share of the credit in achieving an increase of 60.4% in sales of Conoco Germ Processed Motor Oil since April, 1934.

Continental this year is celebrating its sixtieth anniversary. It began operations in Ogden, Utah, in 1875. From a small distributor of kerosene and lubricants long before the advent of the motor car it has grown into one of the nation's leading oil companies.

We welcome the first of April, coming in so calm and pleasant. A little hazy from former dusters, but not sufficient wind to run windmills.

Compared with the whole but little wheat looking well. Much of the acreage seems to be all blown out. Quite a lot looks spindling and bad.

Mrs. Josie Mayo, formerly from Wayside is said to be very low with pneumonia. She is with her son, Joe Clifford, in Amarillo. Relatives and friends are going up to visit her.

Billie and Dickie McGehee seem to be improving in health.

Mrs. Bessie Lane and Joyce left Saturday morning for Pampa to

visit Mrs. George Hancock and family, returning Sunday.

Travis Gillham and Mrs. Hazel Pounds and family left Saturday for Mobeetie, returning Sunday.

W. R. Franklin and wife, Glen, and W. J. Sluder and wife left Sunday morning for Olton, to visit Mrs. Belle Sluder, returning Sunday afternoon. All enjoyed the day very much.

Mrs. Edith Harrell and Billie have returned from Lubbock. Some improvement maybe in Billie's condition.

W. H. Hamblen, wife and daughter, Mrs. Carl Rogers and Carlene left Thursday for Stamford. Mr. Hamblen expected to attend Commissioners Convention at Brownwood.

Don't forget the play next Friday night at Wayside school building. Mistake in last week's print. April 5th is the time. Play entitled "Valley Farm." Admission 15 and 25 cents, benefit for expenses of the new church.

Mr. and Mrs. Clarence Helms have adopted a baby girl six weeks old, named Margery Ann.

## The First "Alloyed Oil"

—for better lubrication of today's high-speed, alloy-steel motors!

## Alloyed by the Germ Process

Just as the metallurgist adds small amounts of other metals to make special alloy steels, so we add small quantities of a concentrated oily essence to highly-refined, paraffin-base motor oil. This Germ Processing, discovered and patented by Continental scientists, gives Conoco Germ Processed Motor Oil lubricating qualities no other oil has.

YOUR MOTOR is built of parts made of special alloy metals. Car manufacturers and metallurgists worked together to produce metal alloys strong and durable enough to withstand the greatly increased pressures and temperatures of the modern motor.

Oils, too, must withstand these pressures and temperatures and they must have extra oiliness and film strength to do it. Yet oils generally have no more oiliness and film strength than they had ten years ago. And many new refining methods now used to make oils free from carbon and sludge have lowered instead of increased oiliness and film strength!

Continental, pioneering as it has pio-

neered for 60 years, has developed the first alloyed oil—Conoco Germ Processed Motor Oil! It is custom-made for high-speed, alloy-steel motors. It has 2 to 4 times the film strength of straight mineral oil, as tests on the Timken machine have proved! It has more oiliness than any oil has naturally. It penetrates and combines with metal surfaces, forming a permanent lubricating film—the "Hidden Quart". It is a pure, clean oil, free from carbon and sludge troubles. It gives extraordinary mileage as well as motor protection, as proved by the Indianapolis Destruction Test.

Say "O.K.—Drain"—fill with Conoco Germ Processed Motor Oil and you will have the finest lubrication you can buy!

A. A. U. W. MEETS WITH  
MISS EDNA GRAHAM

Local members of the A. A. U. W. found the home of Miss Edna Graham at 502 Twentieth Street a pleasant setting for their regular meeting, Monday evening, April 1. Early garden blossoms suggested spring cheer. At the end of the study period, the hostess, with Miss Barlow and Mesdames Pierle and Murray assisting, served refreshments of small cakes and punch.

During the business session Mrs. Thomas B. McCarter, on behalf of Miss Elizabeth Cox, reported more than four hundred magazines ready for distribution to rural schools. Members voted unanimously to hold the annual spring tea honoring girls who graduate from Canyon high schools.

Mrs. Geraldine Green, president of the group, invited the members to hold their last meeting of the club year at her home at 2711 Third Avenue, Monday evening, May 6th.

DINNER BRIDGE AT S. L.  
INGHAM HOME

Mr. and Mrs. Millard Word entertained the Friday Afternoon Club in its regular monthly night meeting at the home of Dr. and Mrs. S. L. Ingham Friday night with a dinner-bridge and Michigan party.

The Easter colors and decorations were used at the seven tables for dinner and play.

Those present were Mr. and Mrs. J. W. Kleinschmidt, Mr. and Mrs. C. L. Thompson, Mr. and Mrs. Marion Bishir, Mr. and Mrs. Guy Harp, Mr. and Mrs. W. C. Black, Mr. and Mrs. T. H. Girl Advisors In  
Eleven Schools At  
W. T. Conference

Eleven high school advisors of girls met at the West Texas State Teachers College recently to discuss their problems.

Mrs. Geraldine Green, dean of women of the West Texas State Teachers College and advisor for this region, had charge of the meeting and Mrs. Gervis Taylor, dean of girls in the Amarillo high school, opened the discussion by outlining the problems that are presented in her office. Mrs. Taylor emphasized the need of prepared advisors for high school girls and mentioned vocational, sex, and athlete problems as among the most important presented to the dean's office. Miss Helen Hickman, college nurse, spoke briefly on the health problems of high school girls, and emphasized the danger of highly competitive games for adolescent girls.

The assembled advisors suggested more frequent meetings and asked that a meeting be arranged in which they could discuss their problems with their principals and superintendents.

Among those present were: Mrs. Gervis Taylor, Amarillo; Miss Helen Hickman and Mrs. Geraldine Green of Canyon; Mrs. Dollie C. Robinson, Samnorwood; Misses Elma Miller of Hereford, Fern Carlile of Hereford, Bess Wesabrook of Hereford, Percy Ryon of Groom, Mrs. Grady Harris, Mobettie, and Mrs. Marshall B. Shaw of Amarillo Junior College.

## SPOKE AT LUBBOCK

Prof. L. F. Sheffy spoke Friday at the Plains Museum Society, sponsored by Texas Tech at Lubbock. He was accompanied by Floyd Studer of Amarillo.

Field Meet At  
Stadium Saturday  
With Texas Tech

Coach Al Baggett is experimenting widely with different boys in different events this week at West Texas State Teachers College in an effort to find the strongest combination to represent the school in the dual track meet with Texas Tech which will be held Saturday at two o'clock on the Buffalo track.

Last Saturday Baggett took a varsity relay team, a freshman relay team, and a javelin thrower to the Texas Relays in Austin. They saw the best men in the country perform and got a taste of competition.

However Coach Baggett is changing up his lineup, even in the relays. He was still undecided yesterday as to what men would compete in any events.

There will be no freshmen competing in the track and field meet against Tech Saturday, but a full schedule of events will be run off.

Starting with the 120 yard hurdles at 2:00 o'clock, the meet will include the 100 yard dash, the 220 and 440 yard dashes, 220 yard low hurdles, the 880 yard, 1 mile, and 2 mile runs, and the mile relay.

In the field events will be the

pole vault, the high jump, shot put, javelin throw, discus throw, and the broad jump.

D. A. Shirley, chairman of the athletic committee will be chief finish judge, and Travis Shaw, business manager of the college, will be chief timer.

All events will be open to the public with no admission charge made. Following the meet Saturday the Buffaloes will journey to Lubbock the following week end for a dual meet with Tech on their home grounds.

Plainview Bunch  
Will Visit City  
Tuesday at 4:20

In the interest of the Seventh Annual Panhandle Plains Dairy Show, a delegation of Plainview business men will visit Canyon next Tuesday afternoon, April 9th, at 4:20 o'clock, spending 15 minutes here.

Motorcades will be run from Plainview for three days next week in three directions. The 40 piece band will accompany the delegations. Souvenirs will be distributed.

## Resolutions Are Adopted by Teachers in Meeting

The following resolutions were adopted in the Education Conference held here last week:

Whereas the Northwest Texas Conference for Education has successfully finished the second annual Conference, and whereas such a fine spirit of helpfulness, co-operation, and encouragement have prevailed the Conference, be it further resolved by this Conference that:

1. Thanks and appreciation be expressed to:

(a) The Texas State Teachers College and all of its various organizations that have made our stay pleasant in Canyon and for splendid entertainment.

(b) The Canyon Chamber of Commerce for their splendid interest and help.

(c) Each speaker who appeared on any program for their efforts to help the members of the Conference become better informed teachers and laymen.

(d) The churches for their fine spirit of co-operation.

(e) The Amarillo News-Globe for splendid publicity previous to and during the Conference.

2. That all those who so kindly opened their homes to us while here be extended our sincere thanks and appreciation.

3. That we commend the splendid program which was arranged by our very efficient program committee.

4. That we express our gratitude to members of the Eighth District Parent-Teacher Associations for their interest and co-operation during the closing sessions of the Conference.

5. That we express our appreciation for and endorsement of the state-wide program of Curriculum revision which has been instituted by the State Board of Education and the State Department of Education.

6. That we also express our thanks to and our confidence in our teachers of this section of our state because of their splendid attitude toward and active participation in the curriculum study.

7. That we urgently favor and request legislation which would apportion state school funds on the basis of average daily attendance rather than on a per-capita basis, because this method would reimburse schools for work actually done rather than work that should be done.

8. That an immediate survey be made of the needs of school districts in the drought area by the Federal Emergency Relief Administration and that prompt action be taken to aid school districts to maintain a normal length of school term.

9. That we oppose any effort from whatever source, which would attempt to divert any part of the money from the available school fund to any other governmental agencies.

10. That we commend and express our appreciation to the pres-

ent Legislature and to the Texas State Teachers Association for their efforts to safeguard the permanent school fund of the state.

11. That we favor legislation which would place the certification of teachers in the hands of the State Board of Education and the State Department of Education.

12. That we urge the legislature to consider and make provisions for a satisfactory plan of teacher retirement or teacher insurance.

13. That we heartily commend our Governor for his stand against crime and that we request all citizens and officers of that law to lend their active support to such a program and that our schools continue their efforts to help eradicate crime.

14. That this conference reaffirm its belief in the value of the teaching profession as the most effective agency for the development of worthy citizenship, and that any unfair discrimination in the salaries of teachers in the public schools and teacher training institutions be looked upon as unjustifiable.

15. That we endorse the plan of organization and administration of the Northwest Texas Conference for Education.

16. That copies of these resolutions be placed in the hands of the press and of interested individuals and organizations.

## Bufs At Track Meet Held Saturday at Austin

Last Saturday nine Buffaloes from the West Texas State Teachers College competed in the Texas Relays in Austin.

The Relays proved to be one of the fastest meets in the country with Glen Cunningham, famous miler, Glen Hardin, hurdler and 440 dash man, and Jack Torrance, shot put champion, from L. S. U., and other world champions, and nationally known track men competing.

Coaches Al Baggett and Bob Cox had a varsity mile relay team, a freshman relay team, and a javelin thrower entered in the meet.

Frank Vaz Noy, Curtis Clement, Jack Davis, and Ray Debenport composed the varsity relay team, and Louis Gibson, Elwood Dow, Slat Middleton, and Grover Dennis were on the freshman relay team.

Stina Cain threw the javelin. All the boys gained some valuable experience in addition to seeing the topnotch performers.

Saturday the Buffaloes have a dual track and field meet with Texas Tech, beginning at 2 o'clock.

A full track and field schedule will be run off Saturday, with each team entering three men in each event. A first place will count five points, second place three points, and third place one point.

On the next Saturday the Buffs go to Lubbock for a return meet with the Matadors. Coach Baggett has planned a full track schedule for the future. This year the Great Plains Meet will be revived with both college and high school divisions, and May 10 and 11 Baggett will take a full team to the official conference meet of the Lone Star Conference, of which the Buffaloes became a member this year.

## Five Teachers Added To Work at CCC Camp

Five men have been given employment at the Palo Duro State Park as teachers in the night school for CCC men. Those assigned to this work are Silas Hart, J. J. Lowery, E. D. Wilmoth, David B. Myers and Wayne Porter.

The school is directed by Walter Hardin four nights of the week for five hours each night.

## Palo Duro Peeps

Mr. and Mrs. Cecil Reader and daughter were visitors in the O. D. Bragg home Sunday.

Mrs. Herman Kuhlman and daughter, Juanita, returned Sunday from Germany, where they have been visiting the past three months.

Edith and Evan Campbell spent Saturday night in the O. D. Bragg home.

Mrs. G. H. Leseberg, Sr., entertained the Lutheran Ladies Aid Thursday afternoon.

## MAVERICK CLUB

NUMBER TWO  
CANYON, TEXAS

By Pat Noser

We finally had our first swim in the pool Monday afternoon, and did we have fun. The first swim of the year, and the weather was just right.

With the sun shining down, a perfect day started off the month of April. It must be April Fool because we have had sand blowing every day so long that we don't know what to do with a still day.

Bill Allen and Jimmie Holston, Buffalo seniors, who have been directing our playing recently, acted as lifeguards and instructors for us. Jimmie has his experience, and Bill has had lots of experience. We all had a real good time. Bill and Jimmie were surprised because we could swim so well. Bill said that half of us were above the average swimmers, and the other half will learn soon.

We can go swimming three times a week now on every Monday, Wednesday and Friday. Just before we went in the pool we also celebrated the fine spring day with our first game of outdoor soft ball. That will be on the regular schedule from now on and so will croquet. They have almost finished the concrete wall around the croquet courts. We play every thing from ping pong to football.

We went out to the CCC camp with the Amarillo Club. Most of the matches proved to be draws, but that must have been because Dutch Mantell, who was the referee, is getting old, and can't see as good as he used to.

Saturday Coach Baggett has asked us to be his guests again at the track meet between West Texas and Texas Tech. We saw the Buffs beat Tech in the boxing and wrestling meet, and Saturday we want to see Canyon chalk up another defeat over Lubbock.

Coach Baggett also has told us that he would give out track team the feature place in the Great Plains meet on April 27th. So we here and now issue a challenge to the Amarillo Mavericks Club for a little track meet of our own.

There will be four races of 50 yards each, and each club can enter three boys in each race. The first will be for boys 9 years old and under, the next 12 years and under, for 14 years and under, and for 17 years and under. Now let's see if the Amarillo Club can run.

## SLACK AND HEATH AT WEST TEXAS CONVENTION

Judge Burney Slack and Commissioner G. B. Heath attended the meeting of County Judges and Commissioners at Brownwood Friday and Saturday. The convention voted to hold its next meeting in Amarillo.

Various problems of the counties, especially bills which are pending in the legislature were discussed at the meeting.

## CARD OF THANKS

## New Students Are Enrolled For Last Nine Weeks Period

The final nine weeks term of the regular session of W. T. is now getting under way. The administrative offices report many new students and a small percentage of withdrawals.

There are 95 students in the June 1935 senior class and an even greater number are scheduled to receive their Bachelor's degrees at the close of the summer session. Many members of the senior class have already secured teaching positions for the 1935-36 session.

## Explorer Honored 54 Years After

For leading the first American Arctic expedition, more than a half century ago, from which only seven of a party of 25 returned alive, Maj.-Gen. Adolphus W. Greeley has at last been honored by Uncle Sam. Secretary of War George Dern, left, is shown pinning the Congressional Medal of Honor on the 91-year-old explorer.

## 800 Cars, Trucks Not Provided With 1935 License Tags

There are practically 800 cars and trucks in Randall county which will not be allowed on the highways, since their owners have not provided them with 1935 license plates. Practically 1600 vehicles were provided with the new plates when the time expired Monday night.

Many trucks were not provided with license plates, awaiting the outcome of the wheat harvest. If there is a small crop, there will be no necessity for the trucks being used.

Cars which are not properly tagged with the new plates will be subject to arrest, and a 20% penalty should they attempt to drive on the highways.

Stunt Night  
April 12th

VOLUME NO. 9

CANYON, TEXAS, APRIL 4, 1935.

NUMBER 29

Cactus  
Cal

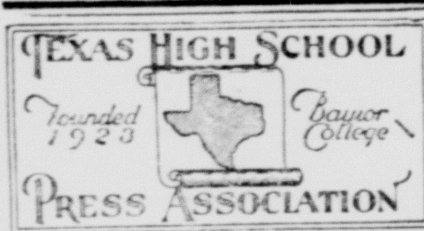

Well, you couldn't fool me! I clear forgot that Monday was April Fool's Day, and if I got fooled once, I bet I got fooled a dozen times. An then I got tired of getting jokes pulled on me, so I just started pulling a few jokes on other people.

If you think C. H. S. hasn't got some good looking boys and girls, just take a look at the class queens and kings that they elected last Thursday. Now the Freshmen elected Natalie Flesher and Jackie Moore, the sure got popular quick, didn't he. No wonder, just look whose cousin he is! And the Sophs say "just anyone will do," so they picked Carolyn Mayfield and John B. Pope. The juniors chose Jack Neil Jennings and Ruby Guthrie (they're sweethearts you know), and last of all the seniors got Mary Jean Mickle, a very charming young lady, and Curtis Ellison, ex-football captain.

Have you heard about Rubye Foster getting a letter from the Governor? He invited her personally to come down there and stay in his mansion if she come to Austin with the I. L. P. C. Jimmy Allred is a special cousin of Rubye's.

I don't want none of the teachers to start spying, but all the time I see Gladys McBride and Johnnie McBroon slipping notes to each other. And I also notice that Glenna B. Eastwood and Jackie Moore have a pretty bad habit of note writing. I don't imagine any of the teachers would be interested though, cause they probably wouldn't understand about these "Younger generation love affairs."

## SPIRIT OF C. H. S. SEES MISTAKES

What would an invisible character in the auditorium tell? Listen and hear:

"I am the invisible in the auditorium. I am the Spirit of Canyon High School. Last assembly I was bored by an unthoughtful boy, who kept irregular time to the songs so loudly that I could scarcely hear."

I see students ridicule speakers, laugh about serious matters, talk, chew gum, and always scramble to get out of the auditorium first.

I'm the silent watcher; I can do nothing. The students must correct their own mistakes."

## BIRD HOUSES DESTROYED BY UNTHOUGHTFUL ONES

"Who is throwing stones at my house," chirped the birds as they fluttered from their red, orange, and green houses last Thursday night.

The gaily-colored bird houses, that the elementary students placed in the trees that stand in front of the grade school were battered from their moorings by some one who did not realize what these houses meant to the students that placed them in the trees, nor to the birds who were making their nests there.

Friday morning the only evidence of the bird houses was one orange board in the grass and the questions of those that had carefully placed the houses there.

Fay Plaster was in Amarillo Friday afternoon.

Sophomores Defeat Juniors In  
Thrilling Cage Final Friday

The Sophomore Sextet, led by Captain Billy Greenfield, forced its way to victory in the girls' intramural basketball last Friday.

The final game was a real cage thriller between the juniors and sophomores. The sophomore girls took the lead at the first of the game, but during the last quarter the juniors were able to take the lead and the game ended with the score 17 to 17. Three minutes extra was played to decide the winner and the score ended 20 to 19 for the sophomores.

Girls' intramural basketball began March 26. The first game was played by the juniors and freshmen. The juniors won by 32 to 14.

The second game's contestants were the sophomores and seniors, the sophomores were victorious by a score of 9 to 7.

The juniors were victorious the second time, when they played the seventh grade in the semi-finals. The score was 37 to 15.

The girls wish to thank Bud Myers for refereeing the games, and Miss Lois Goodrich for sponsoring the tournament.

All Teachers Join  
Chamber Commerce

The teachers of the Canyon Public Schools voted March 14 to join the Chamber of Commerce.

The teachers joined as one membership, each one paying 50 cents, 25 cents a month for the remaining school year.

Cleveland Jones, coach and history teacher, John B. Pope, principal of the high school, and Milton Sanders, history teacher in the grades and assistant coach, paid one dollar each.

The high school teachers, Aubrey Fox, O. T. Barker, Misses Jewel Foster, Grace Clark, Lois Goodrich, Mattie Jordan, and Fannie Sue Brasuel paid 50 cents each.

Each teacher in the grade school contributed 50 cents to the Chamber of Commerce fund. These were: Mrs. Stella Murrell, Mrs. Ola Beeson, Mrs. J. D. Barker, Mrs. T. W. Collins, Mrs. John Davis, Misses Lenna Foster, Erin Gamble, Ruth Greenfield, Frances Singleton, Gwendolyn Black, Gladys McClanahan, and Annis Smith.

The total sum of this contribution was \$13.50.

AGRICULTURE CLASS  
SURVEYS HICKS FARM

Jack Pitts, Lester Smith, Odell Miller, Edd Brooks, Herbert Mariner, and Jimmy Frick of the high school agriculture class ran a survey of Rev. J. R. Hicks' farm 4 miles south east of Canyon, Friday afternoon for an irrigation project. They were under the supervision of George Gandy, the class instructor.

Immediately following their work the boys were treated with candy bars by Rev. Hicks.

BASKETBALL LETTERMEN  
ORDER LETTER SWEATERS

Basketball sweaters for the Eagle Basketeers have been ordered.

Jack Taylor, Wesley Cox, Tom Harris, Lawrence Fulton, O. M. Solomon and Curtis Ellison are eligible to receive sweaters. Curtis and O. M. however, will not get sweaters, since they received football sweaters.

SENIOR PICTURES MUST  
BE MADE BY APRIL 15

All senior pictures must be made by April 15.

The order for caps and gowns, diploma covers, invitations and cards was sent off March 26. Seven hundred and seventy-six invitations were ordered, and 17 students ordered engraved cards to match the invitations.

Anna Mayo Sharp spent the week-end at her home in Tulsa.

Miss Mattie Jordan went to Tulsa over the week-end.

Press Club Will  
Put Out Special  
Graduation Paper

The Canyon High School Press Club will put out a special eight-page graduation edition of The Eagle's Tale, to be published early in May.

Work will begin on the special edition immediately. Officers which have been chosen are: Miss Lois Goodrich, faculty adviser; Bill Cone and Hampton Lisle, co-editors, and Jack Oldham, art editor. Other officers will be selected in the near future.

Complete co-operation in order to make this project a success is urged by Miss Goodrich.

April Fool's Day  
Is Picnic Day

Because April Fool's Day is celebrated on April 1, the students and teachers of the Canyon Public Schools were granted a holiday Monday.

My, how many of those school girls are sunburned! And did you notice that the boys, and girls too, are lumping from soreness?

The seniors made a day of it at the Baptist Encampment. Coach Jones took baseball equipment and again baseball took the top. Although these new white "African hunter's hats" were worn by many seniors, still many are suffering from sunburned noses, arms, and necks.

Palo Duro Park was the scene of another big picnic. In fact, the place was full of juniors with the sponsor, Miss Lois Goodrich. One notable event of the day was the heroic efforts of the juniors to help locate a lost child. Of course, Hal and Jack played marbles.

The Fish also celebrated April Fool's Day with a picnic at Bourn's Creek. One calamity happened. The Fish got lost from Mr. Fox, and he had all the eats. After dark the Fish slowly but happily walked into town.

The Seventh Grade "tripped the light fantastic" to the South Creek, ate lunch and then took up the most noble of sports, baseball, and horseback riding.

Grade Students  
Hold Declamation

Declaimers from the intermediate grades had their tryouts last Friday in the High School Auditorium. May Lou Barnett and Martha Frances Campbell were chosen as the girls to represent the grade school, and Dawson Little and Vaughn Vandergriff as the boy representatives.

The contestants, three boys and six girls, were declaiming for the honor of representing the grade school at the District Interscholastic League meet, April 13.

All students in the intermediate grades except those that play in the band heard the declamation.

The judges were Mrs. Tommie Montfort, Miss Ruth Lowe, and Mr. Planigan Smith.

P. T. A. MOTHER SINGERS  
ENTERTAIN ASSEMBLY

Assembly last Thursday was in charge of the P. T. A. Mother Singers. Mrs. H. A. Brown was in charge of the following program:

"Peon to Summer," Von Suppe.  
"Cradle Song," Brahms.  
"Fairies," by Mattel.

Mary Ella Lowe explained the plan of the Press Club to publish a special graduation edition of The Eagle's Tale.

Jack Oldham then explained the cost of pictures in the edition to individuals.

## TRACK MEET POSTPONED

The Herford Invitational Track Meet was postponed indefinitely on account of the strong wind and the blinding dust which swept the Whiteface field last Saturday.

The Canyon track team was entered in this meet and was picked as one of the three teams to take first place honors.

The staff of The Eagles Tale worked Monday morning to put out the paper, while others were picnicking.

Kenneth Black, who has been ill with rheumatism, is still under treatment at Mineral Wells. He is reported to be improving slowly.

There were two fire drills Friday afternoon between one and two o'clock.

Andy Lee Walsh entertained several of his friends with a birthday party Friday night.

Superintendent  
Says—

The Canyon Public Schools are fortunate in having as their friends and patrons men and women who are eager to plan and willing to work that their children and school might achieve the maximum of success.

The Parent-Teacher Association Convention recently held in Canyon well illustrates the loyalty and interest of many of our patrons.

In order that this meeting might be a success many hours had to be spent in planning and working. The Convention was a great success and brought credit to our town and our school—thanks to those who served so unselfishly.

Throughout the school term the Parent-Teacher Association has been an invaluable aid in stimulating interest in the school and in assisting in the forwarding of the school program.

The faculty of the public school sincerely appreciates this help which has been so generously given.

Dr. Pierle Speaks  
To World History  
Class On China

Dr. C. A. Pierle, of W. T. S. T. C. talked to the World History Class last Friday on China. This was the conclusion of the class' project on "The Problem of China and Japan and Imperialism."

He gave the concessions that China had been forced to make to other nations of the world. Using maps, he illustrated how the nations had charge of most of the wealthy provinces of China.

According to Dr. Pierle, the Chinese had plenty of justification in trying to get rid of their foreigners during the Boxer Rebellion of 1900. The Chinese government lost more in trying to gain peace after the uprising than it ever had lost before. The Chinese indemnity was to run to 1944, by raising duty. Duty collectors of the powers were used in collecting the duty instead of Chinese collectors; thereby China became a slave to the other foreign powers.

The Salt Tax is the only way for the Chinese to gain money to run their government. "The thing boot-logged in China is salt," said Dr. Pierle.

He said that China had been unable to progress and make internal headway because she has no financial basis and has had to borrow money, making her debts greater. There is only one railroad in China which has been built by Chinese capital, and this was built by Chinese people only.

In 1915, Japan gave China Twenty-One Demands, and the Chinese minister gave the story to Frederick Moore, a U. P. correspondent in China. The minister of China, in Washington, denied the knowledge of the Twenty-One Demands because "he had instructions to lie to the U. S. from his home office. This was a bit of Japanese diplomacy." The Japanese minister again said they were not Twenty-One Demands, but "Things that Japan wanted." The Japanese kept their subjects hoodwinked as to the Japanese diplomacy. The Twenty-One Demands died because the powers refused to let them pass during the World War.

Since this war, Japan has tried to gain the old German provinces. Now, the Japanese virtually have charge of Manchuria. Recently Japan has offered China money to get certain concessions of the Twenty-One Demands of 1915 and Dr. Pierle said he didn't know whether China would accept or not.

Jack Middleton and Forrest Hill made a booklet on "Current Events in China and Japan," and numerous oral reports have also been made in the study of China, Japan, and Imperialism.

## STAFF TO GO TO AMARILLO

Members of the Press Club are planning to go to Amarillo, April 6 to visit McCormick Engraving Company, the offices of the Amarillo News-Globe, and Russell Stationery Company.

Last year, the Press Club went to the News-Globe offices, and visited Borden's Creamery and KGRS Broadcasting Station.

HOME ECONOMIC  
CONVENTION TO  
BE HELD HERE

CANYON GIRLS ATTEND CONVENTION IN PLAINVIEW AND TOOK PART IN PROGRAM. "A CENTENNIAL OF HOME-MAKING IN TEXAS."

The Canyon High School Home Economics Club will be co-hostess to the Second Annual District Home Economics Club Meeting at its session in 1936. The Demonstration School will be hostess with the high school girls.

The high school club attended the first annual meeting at Plainview, Saturday. The theme of the meeting was: "A Centennial of Homemaking in Texas." The clubs represented gave the various stages of homemaking in Texas. The Canyon club presented a musical play giving the home life during the Civil War and Reconstruction days.

Marielle Oldham, president of the local organization, gave the response to the welcome.

A stunt showing the need of Home Economics was presented by the high school club.

The day's program was concluded by a reception given by the Plainview Economic Department.

George Washington  
To Mae West Present  
At Costume Recital

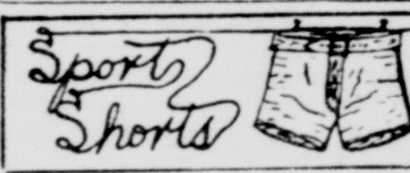

Carnival spirit will prevail at the high school next Tuesday night when the annual costume recital will be presented by the music and expression departments.

From George Washington to Mae West will be present. Dutch, Scotch, Japanese, Chinese, Negro, and Italian peoples will be present, even to Robinson Crusoe!

Tin soldiers, elves, fairies, and princesses will be there to see the younger children.

Indians, cowboys, pirates, and aviators, have promised to see the little boys, and little girls, too!

A snow man, even if spring is almost here, will be there. The recital will be at 8 o'clock.

What about the game which is coming to a head in about two weeks?

Captain Cox, Leslie Lisle, Billy Bewley, Hushel Burrus, C. L. Drummond, "Boots" Johnson, Tom Harris, Benson Clouch, Edgar Hutton, Ralph Rusk, Lavert Avert and Donald Wilkinson are the promising material for the '35 team. They are all on the first string at the present although other boys are showing up well, and there will be slight changes before the game with the seniors. The second string boasts good players. Douglas Louder and Douglas Brasuel are outstanding players. The second string backs are equal to the first. They are: Joe Gill, Jack Taylor, O. D. Breitting, and John B. Pope III.

The seniors boast former captain Ellison, Wade Johnson, Cecil O'Donald, Chris Wooten, Roland Black, Hampton Lisle, Edd Brooks, James Hill, and Jack Pitts, seven of which are lettermen of the last season. Others were members of the squad. Willard Childers will be ineligible for the '35 season and will be permitted to play with the seniors.

The game should arouse much interest in the high school. The seniors have the heavier team, although the '35 team has the advantage of several weeks of practice.

Jack Taylor boasts of being marble king of C. H. S. He has accumulated 1127 marbles, plus 39 agates.

Ping pong champs are Lorene Bessire and Chiole Hall for the girls, and Bud Myers, Estill Purlow, and R. E. Prichard are all champs of the boys' ping pong table.

Swimming started two weeks ago when several boys went out to the college farm and broke the ice. Every boy was purple when he emerged from the water, although they say the water is fine now.

Margaret Nicholas spent the week-end at the ranch of her father in Colorado.

Miss Jewell Foster spent the week-end at Dumas.

Ethel Ruth Collins spent Friday night at her home in Canyon.

We recognized Russia some time ago, but things seem to be getting blurred again.

FOOTBALL PLAYERS  
VISIT SANDY GRIDIRON

Thirty high school boys have been reporting regularly for football practice for the last three weeks.

As a reward for the steady practice of the 1935 team, Coach C. C. Jones took part of the team to Amarillo to see the Sandy "A" and "B" team scrimmage. The trip was made to show the inexperienced Eagles some of the fundamentals that are necessary to the game.

The Eagles have learned 24 plays during the last week.

The Eagle line and back field have been practicing blocking and tackling mostly with running plays.

WESLEY COX HONORED WITH  
SURPRISE BIRTHDAY PARTY

Wesley Cox was given a surprise birthday party by Sewel Cox and a number of his friends at his home, April 26.

The group gathered on top of the hill north of the Cox home and went down in a group to the house to surprise Wesley.

Games of "General Delivery," "Gossip," "Knocking for Love," and "Car" were played.

Mary May Harrison entertained the group with several popular piano selections.

Refreshments of ice cream with chocolate sauce and cookies were served to Misses Mary May Harrison, Irene Thompson, Anna Kathryn Overton, Edith Steen, Luara Ferne Brian, Mable Schmitz, Mary Ella Davis, Dora Mae Plaster, Fay Plaster, Gladys Stewart, and to Bill Cone, Jack Oldham, Jack Taylor, Hampton and Leslie Lisle, Bud McNeal, George Archer, Sewel Cox, Jackie Moore, and the host, Wesley Cox.

Episodes of lasting importance were created Thursday in the separate class meetings. Anger and tantrums threatened various individuals who longed to become the high school King and Queen.

The candidates elected were: Natalie Flesher and Jackie Moore, freshmen; Carolyn Mayfield and John B. Pope, sophomores; Ruby Guthrie and Jack Neil Jennings, juniors; and Mary Jean Mickle and Curtis Ellison, seniors.

Natalie Flesher, freshman candidate, is active in sports. She has been enrolled here since she was in the second grade. Jackie Moore, cousin of Sewel and Wesley Cox, was enrolled as a freshman three weeks and three days ago. Carolyn Mayfield has attended this school since she was in the first grade. She is also active in sports.

John B. Pope has been enrolled as a sophomore since September. Ruby Guthrie, who was Freshman Queen in '32, is now candidate from the junior class. Jack Neil Jennings, sports editor of The Eagles Tale, has been enrolled in school here since he was in the first grade. Mary Jean Mickle is interested in music. She has been enrolled since she was in the first grade. Curtis Ellison, football and basketball captain, has been enrolled since he was in the sixth grade.

"Balmy Days" Pre-  
sented as Seniors  
Play Fri., May 10

The senior play this year is to be "Balmy Days" by George Savage.

It is about a family, the Gateses, who have lost all their money. Mrs. Gates reforms and turns her natural ability as a leader into organizing the logging household on a living basis. The play moves at all times; humor and suspense are carefully interwoven, and one of its underlying appeals is its portrayal of what can be accomplished by that very American characteristic, gumption.

The players will be selected by try-out during the coming week. Rehearsals will start April 14.

The date of the play has been set for May 10.

Mrs. J. H. Black  
Speaks to P. T. A.

"Cultivating Truthfulness" was the subject discussed by Mrs. Joe H. Black, Thursday afternoon at the P. T. A. study group.

Mrs. Black said that every home should take the quotation, "Thou shalt not lie," for its law. "If a family is happy in its home, its members must have confidence and respect for each other," she said. "A child will not lie unless he believes that the punishment is unjust," she continued.

Something is wrong with the system of discipline when a child will deliberately lie, was Mrs. Black's opinion. She also said that social adjustments should be explained to children.

In concluding her talk, Mrs. Black said that truth should be an ideal, and children should be taught this from the first.

The subject for the next meeting will be, "Do parents have favorites in their families?"

Mary Collins spent the week-end with her aunt, Mrs. J. C. Fuller of Plainview.

F. A. Thomas, '33, is back from Arizona where he was working in a CCC camp.

# DON'T BUY HOUSE PAINT ON PRICE ALONE

Price per gallon alone does not determine the cost of paint. The actual number of gallons used, and the number of years it wears—these things determine the actual cost of painting. That's why it pays to choose LOWE BROTHERS HIGH STANDARD House Paint. For HIGH STANDARD covers more surface per gallon and wears years longer! Let us tell you why.

## Lowering Mounds on Graves Asked Cemetery Officers

With the completion of the water works at the Dreamland Cemetery, another improvement is being requested of those who have lots in the cemetery—lowering of the mounds at the graves in order to let the grass grow evenly and to permit the mowing of the grass.

A large number of lot owners have followed this practice, and find that the lots are greatly improved in looks as a result of being seeded, rather than keeping the mounds built up.

The committee will keep a man at the cemetery to see that the graves are not allowed to sink below the level of the surrounding grounds. A large number of those having loved ones buried at Dreamland have entered into the plan, and it is expected the appearance of the grounds will be greatly improved during the summer.

The new well is complete, and the windmill and tank are being placed this week. Pipe is being laid so irrigation will be possible in all parts of the cemetery. Several hundred trees have been planted, and shrubbery and flowers of various kinds have been added to the improvements.

## Buff Courts

(Continued from first page)

underway on the campus, if there is no hitch in the allotment of \$10,000 set up for relief labor. The appropriation will buy a sufficient amount of cement and lumber to complete these jobs.

Work on the Recreation Hall, Buffalo Courts, and the rock fences has been underway for some time with relief labor, the materials being furnished from various sources.

It will take about \$400 worth of lumber to build the bleachers in Burton Gymnasium over the new hand ball courts which have been under construction since last fall.

President J. A. Hill telephoned Tuesday from Austin expressing great satisfaction that the money would be available when approved by Governor Allred for the completion of the projects. Dr. Hill has been greatly interested in the expansion of the physical education program of W. T. so that it would include all students rather than a select few as is usually the case. The enlarged program, especially the building of a Recreational center for the men, was undertaken by Coach Baggett under this plan to enlarge the physical education scope of activity.

Governor Allred was shown the work under way while on his recent visit to the campus, and it is

felt sure that he will gladly sign the appropriation bill when it reaches his desk.

## New Rates

(Continued from first page)  
In the field of home lighting, useful household appliances, refrigeration, cooking, air - conditioning, and what have you, the possibilities are practically unlimited. This area is fortunate in that a company has for twenty years in this section both in good times and bad made its contribution along such well-defined lines.

There is an undoubted bit of sentiment attached to the "good old days" when the lamp globe of the kerosene era was furnished to the last degree in sparkling brilliance but the steady glow of present-day standard wattage lamps today puts the old days in deep shadows. It is rather hard on broom-corn, too, even though a "new broom sweeps clean" to put it against one of the modern sweepers. Very much like old Dobbin in a quarter-mile against a modern car for finish and speed.

Perhaps one of the best means the average home could employ to determine where added current at no greater cost could be profitably used would be to make a room to room analysis of the present lighting conditions. In the application of the "Ultimate" rate we understand the increased cost is little, if any, for a much larger use of current. An attitude of thinking that your present use of kilowatt hours is ample might have a tendency to minimize the influence at work over the whole country to put in the American home the widest, fullest use of this household servant.

## IN THE WORLD OF SPORTS

To Schmeling and Baer, It Max a Lot of Difference Who Emerges the Winner in Their Bout This Coming August

BY PHILIP MARTIN

GET ready for an avalanche of ballyhoo, fight fans, for another heavyweight championship brawl is in the offing. In this corner will be Maxie Schmeling, "Black Uhlan of Hamburg" and former occupant of the throne—and, in that one, another Maxie, the big, bad Baer, present throneholder-down.

Aug. 17 is the red-letter date, but where the German and the California Cuffer will collide is uncertain.

Before the fracas, however, Baer may meet the winner of certain elimination bouts now being conducted. Being a seventh son and endowed with psychic powers, we suspect that Shufflin' Joe

Louis, the black dynamite from Detroit, will emerge the outstanding candidate for Baer's crown. The Livermore lad, however, has already expressed a desire to draw the color line.

In meeting Baer, Schmeling hopes to avenge the shellacking handed him by the other Max back in June, 1933, when the Teuton was k. o'd in 10 frames. Shortly afterward, Steve Hamas duplicated the trick, but Hamas got his come-uppance from Baer recently in Hamburg, Germany.

Can Schmeling complete his comeback, a feat never before performed by an ex-champ? Or will the picturesque Baer again push the plodding Schmeling back into the shadows? Fight bugs

will know the answer next August.

STILL another championship bout will be served up to fight fans during the early part of June, when Barney Ross, lightweight king, and Lou Ambers, the Herkimer, N. Y., sensation, tussle for the title.

Ross was suspended in New York State for his refusal to hook up with Ambers, but the ban will be lifted before the match takes place.

Lou has clearly earned the right to meet Ross as a result of his meteoric rise to the top in the last year. May we suggest that Ambers is an excellent bet to win?

## Johnston Writes Of Findings In Oklahoma Section

Professor C. Stuart Johnston of the archaeology department of W. T., has recently had two articles published in professional magazines.

In the American Midland Naturalist, appeared "An Extension in the Range of Fossil Peccaries." The other article, "Two Fossil Grizzly Bears From the Pleistocene of Oklahoma," appeared in the February-March number of the Journal of Geology. This article was written with Professor J. Willis Stovall.

Among other things the last article brought out that during the Eyesight specialist.

Mr. Marsh made the trip in New York with a group of social workers for the purpose of seeing how people had to live. While those living on the east side of New York were often condemned as lazy and shiftless, a recent survey showed that a large percent of them were the victim of circumstances, and that they would work if given an opportunity. The speaker told of the work of Mr. Zero, a man who retired from a position of large responsibilities to devote his time to living for the unfortunates. He had changed his life from a go-getter to a go-giver.

Other visits were made to the municipal "flop" house where beds are provided for 1500 men; Ward Island, where the insane are confined; and Welfare Island, the large prison, filled largely with young men 17 to 21 years.

As a conclusion of his investigations, Mr. Marsh stated that our society is very sick; we produce more than enough, but do not have adequate distribution facilities; selfish individualism is at the seat of much of our trouble; something must be done to take care of the increasing number of idle boys and girls, who are lead to the life of crime.

Visitors present Tuesday were: Roy Pool and Fred E. DeCosta of Amarillo, and W. J. Lites of Dallas.

## Cooler Wave Stops Dust, But Brings No Moisture Here

The temperature dropped from 85 degrees Monday to 38 degrees Tuesday, with a threat of rain, but nothing more than a mist hung over the land. However, the cleared atmosphere was a great relief to the continuous dust which has filled the air for the past month.

No moisture is promised for this section, although cloudy weather may prevail for several days. Another duster seems to be on its way for today's offering.

## 'Spring Cleaning' at the Zoo

If winter ends, can spring cleaning be far behind? Not for the zoo inmates pictured above. The South American llama, with an "Oh, dear!" expression, submits to having her spring coat cleaned. And Howard Hippo obediently says "Ah," so that his tusks can be pumiced. But it's all a lot of monkey business to the rambunctious simian, which raises its arms in protest.
